Official Public-Root Representative and Lobbyist to the United States Congress and Senate

September 28, 2005

Mr. Marty van Veluw, Managing Director
UNIDT B.V.
Haaksbergweg 41
Amsterdam 1101BR
The Netherlands

Marty:

Re: Totaal kosten en bijdrage ISP Marketing en Sunita van Veluw Sichting

I have had enough of this bullshit concerning children's funds that are privately run. The Sunita van Veluw Foundation quoted above, also mentioned in Jody Newman's email of this past August 22 2005, a copy of which is attached.

As you may remember, my investigation into the activities of your company and its association with one George Green concerns me. It also concerns me that George Green uses children's benevolent societies to fund his underworld activities.

Furthermore, the Public-Root is not some personal finance department of yours that funds your private benevolent societies. If you want to honor your dead daughter do it with your own money. Not ours. If we decide to give our money to children, it will be to a recognized international child's society.

I am sure by now you understand my concern when it comes to any association by anyone associated with the Public-Root and George Green. I am still waiting for a public statement from you concerning how it is you did not know George Green had a secretary operating in your office.

That is all for now.

Sincerely,

Joe Baptista

JLB / ns.

Subject: New Public-Root Structure

From: "jdnewman"

Date: Mon, 22 Aug 2005 23:27:44 -0400

To: "joe baptista" , , "Martijn Burger" , "Marty van Veluw"

Team: I talked with Marty briefly today, and have attempted to summarize below what was agreed in the meeting on Sunday. Please confirm as soon as possible, so we can commence execution via KPMG.

- The key functions of the Public-Root consortium (*i.e.*, factory, commercial, and policy) will be integrated into a single corporate structure, with a unified image and market approach, and much improved levels of quality, stability, and credibility.
- The new Public-Root Group shall be structured to achieve our objective of combining a commercial venture with a not-for-profit component.
- As an initial step, all shares and other interests in the Public-Root will be transferred to Comms Intelligence (CI), until the adoption of a definitive group structure.
- CI will establish an "interim board" consisting of three representatives -- one each from:
 - The Public-Root (to be determined)
 - UNIDT (Marty)
 - The Internet or Linux community (*e.g.*, Karl Auerbach, Jon "Maddog" Hall, or similar)
- The interim board shall:
 - Re-confirm the core principles, policies, processes, and objectives of the new Public-Root Group
 - Design and execute a definitive corporate structure (including a board framework) that will effectively and efficiently achieve the above
 - Establish a basic management team to assist accordingly.
- We expect the interim board will complete the above within 15-30 days.
- At that point, the definitive Public-Root Group structure will be implemented via KPMG.
- In parallel, all Public-Root Group activities involving marketing, sales, partnering, and private placement will continue in accordance with UNIDT plans.
- All Public-Root/UNIDT projects will be integrated into this new structure (internationalized/multi-lingual TLDs, email2, IPv6, etc.).
- 10% of the Public-Root Group's income will be contributed to the Sunita van Veluw Foundation for projects to benefit children around the world.

Let's move quickly please -- let me know if any questions or comments.

Thanks, JDN
